

Year 4

What have Year 4 been up to?

Year 4 have been very busy learning about a great range of topics across all learning areas. This has included Characterisation, Patterns and Algebra, preparing for Lent and researching for their Genius Hour project.

Students have been having lots of fun as they learn about line, shape and colour in Visual Arts. Here are some pictures of students creating their artworks!

What is coming up in Year 4?

Students are very excited about their Lenten commitments, as we prepare to look at the amazing Easter story before school break.

Students should also be continuing to select fun, engaging and appropriate novels to be reading daily. This continuous reading is so beneficial for their overall language development. Keep it up, Year 4!

Students are also very excited to go to our postponed day excursion to Wonga Wetlands, to explore the wonderful flora and fauna our town has to offer and to complete their field study. Stay tuned!
